Succeeding the Past, Excavating the Future -- A Letter from the President of ATCMS

The 2nd term ATCMS Board and Standing Board were implemented through a voting process, on March 14, 2010. As the new president of ATCMS, I highly appreciated all former ATCMS board members' efforts and contributions during the past two years. Led by both Dr. Yong Ming Li, the former President, and Dr. Ling Zheng, the Secretary-in-general, the team has built up ATCMS on a solid ground and opened up a new prospect, through a series of creative jobs. In the upcoming two years, I shall work with those new team colleagues together, and try our best to reach the following goals:

1. To continually maintain the democratic principle and rely on the group's wisdom and strength to run this organization.
2. To organize seminars and other academic activities, and provide opportunities of TCM academic exchange and continual education to our ATCMS members, as we did in the past two years;
3. To enhance ATCMS's various functional departments, and have a person specially assigned to be responsible for the task of each department;
4. To broaden our services for ATCMS members, and make efforts to bring more benefits to them.
5. To reinforce the co-operations with other TCM professional organizations, and be active in participating and promoting the related legislative activities.
6. To establish the mechanism for promoting member relationship, and build a platform for their social activities;
7. To strengthen the bi-languages services for those non-Chinese speaking members.

I urge every current ATCMS board member to participate in our tasks actively, and contribute your wisdom and strength for ATCMS's development. I am looking forward to continual supports from every member.

Let us endeavor, to succeed the past and excavate the future for the sake of an everlasting ATCMS !

Jun Xu, M.D., L.Ac.

ATCMS Spring Outing Activity

ATCMS will hold a spring outing activity at Fort Tryon Park in Manhattan (nearby 190th Street), on May 30, Sunday, 9:30am-4:00pm, sincerely invite ATCMS members and TCM colleagues as well as family members to participate in this event. We are looking forward to meeting you and your family members at this beautiful park located on the East side of Hudson River, during the long-weekend in the warm spring. ATCMS will provide free sandwich and spring water. It will be welcome if anyone would like to bring some foods or fruits.

Transportation: (1) Take the A train to 190th Street and exit the station by elevator. Walk north along Margaret Corbin Drive for approximately ten minutes or transfer to the M4 bus and ride north one stop. If you are coming from the Museum's Main Building, you may also take the M4 bus directly from Madison Avenue / 83rd Street to the last stop. (2) By car, take Henry Hudson Parkway northbound to the first exit after George Washington Bridge (Fort Tryon Park-The Cloisters). This exit is only accessible from the northbound lane; if coming from the north, take Henry Hudson Parkway southbound to exit 14-15, make a U-turn, and travel north one mile to the exit marked Fort Tryon Park-The Cloisters. For the detailed transportation information, please visit: www.metmuseum.org/cloisters/general#directions

ATCMS Seminars on June 13 and July 17, 2010

We are very pleased to announce that there will be two seminars during the summer. The first one will be held in Shelton Hotel in Flushing, NY on Sunday, June 13, 2010. The topic is “Irregular Menstruation: Diagnosis and Treatment by TCM and Acupuncture”, and the speaker is Dr. Yong En Shi. Dr. Shi has 50 years’ experiences in treating women’s diseases. The lecture will be given in Chinese and the power point presentation and handout will be in Chinese. The second seminar will be held at Pacific College of Oriental Medicine on Saturday, July 17, 2010. There will be two topics including “How to Deal with Acupuncture Insurance Billing”, by Magnolia Goh, L.Ac., and “Neuromusculoskeletal Medicine of the joints of Hip, Knee, Ankle and Foot- Role of Traditional Chinese Medicine” by Jun Xu, MD. Both lectures were given in 2009 and 2008, respectively, and they are very interesting topics and are highly recommended by the audience. Both lectures will be given in English and the power point presentation and handout will be in both Chinese and English. For details, please see seminar announcement in the news letter. We hope that you do not miss them.

Academic Sub-Committee & Secretariat

Report from Board Member, Miguel Maya:

Hello, everyone. Here is an update on where we stand with legislative action. First let me extend a thank you to all those who have already sent in letters to their local assembly members in support of the SAME-AS Insurance Parity Bill in the senate S7498 to A9097 in the assembly and Herbal Bill(A3717/S5512). We have a limited window of time to get these bills through the assigned committees (Insurance and Higher Education). If you have not already done so, than we urge you to use votesmart.org to find the contact information for your legislator and ask for co-sponsorship on these bills.

At the recent AAAOM convention there was a presentation on ICD codes by Dr. Molly Robinson, a representative of the World Health Organization (WHO). This project seeks to include our diagnostics into the ICD coding system, which represents a fundamental shift from the inclusion of only Western diagnostics.

There is a movement in the profession of physical therapy that can potentially effect us as acupuncturists. It is called TDN or trigger point dry needling and some states have already included it in the scope of practice of physical therapy. For more information see these links
